

PRODUCT SPECIFICATIONS

VIRICITOL®

MULTIPLE USES AND SURFACES

DESCRIPTION

Neutral sanitiser. Ready for use. No rinsing required. Multiple uses and surfaces. For direct daily use. Does not stain or harm surfaces. High shock sanitisation power. Fast action and evaporation, for all environmental sanitisation.

For use by the general public or professional personnel.

PROPERTIES

Sanitising product indicated for cleaning computers, phones, vehicle interiors, lifts, stretchers, furniture, counters, high chairs, electrical appliances, baths, doors and handles, instruments, machinery, floors and tiles, surgical lighting, kitchens, waste bins, fabrics, buttons and more.

COMPOSITION.

Propan-2-ol. Water and excipients q.s.

INSTRUCTIONS FOR USE

First remove any remaining dirt. Spray on the undiluted product. Rub and spread with a slightly damp cloth or single-use paper until the product has dried. No need to rinse. For floors, spray on the undiluted product, spread with a mop and leave to dry.

For use on face masks: Specially recommended for sanitising all kinds of face masks. Fast action. Leaves no soapy residue on fabric or cellulose. Spray on the back and front of the mask, leave to act for 3 minutes then leave to dry.

For special use with micro-spray equipment: Apply to all kinds of surfaces with no need for rubbing. Self-drying effect. Leaves surfaces free of residue, substances and films.

Recommended contact time 1 to 5 minutes.

The room can then be used as normal.

PRECAUTIONS AND HANDLING

Do not ingest. Keep out of the reach of children. Read the label before use. Keep away from heat, hot surfaces, open flames and sparks. Do not smoke. Avoid inhaling fumes, mist and spray.

PRESENTATION

750-ml bottle with sprayer.

5-l bottle.

ADDITIONAL INFORMATION
